

High Scorez Sauce Infused Preroll

Powered by iLAVA HTFSE Sauce

Who says the good ol' days are over? Maybe they start this weekend.

We gave High Scorez its retro vibe because we're nostalgic for right now. We developed a preroll that doesn't compromise on potency or natural flavor. Powered by iLAVA HTFSE Sauce, the end result is a mess-free, natural-tasting joint designed to burn evenly and pack a punch.

Why we are different:

1. Infused with High Terpene Full Spectrum Extract Sauce
2. No distillate or kief
3. Only naturally derived terpenes; no artificial or botanical terpenes
4. Premium Indoor Cannabis Flower. Proprietary Cold Cured process ensures the plant retains all the natural terpenes, and the trichomes on the outside of the plant are left intact
5. Natural cannabis taste and even burn from start to finish
